

Graduate Surveyors

Exciting work opportunities in Australia

This is a golden opportunity to start your career.

Our organisation has established a leading presence in the Australian Engineering, Railway, Mining and Construction industries.

Currently servicing the largest construction and infrastructure companies in Australia, we are seeking four (4) motivated Graduate Surveyors for various positions Australia wide.

Requirements:

- Completed University / Technical College studies in Surveying.
- Good knowledge of either AutoCAD or Terramodel software.
- Previous experience using Leica or Trimble Total Stations.
- The successful applicant would be self confident, pro active and possess good problem solving skills.
- Engineering / Construction experience would be an advantage.

The successful applicant will effectively communicate and liaise with team members and clients. An enthusiastic and positive 'can do' attitude is a must.

Application should include a cover letter and curriculum vitae.

All applications are dealt with in the strictest confidence. To apply [click here](#)
